#### FOOTNOTES

\*Revised from 1971 year-end report.

\*\*Trade summaries do not add to totals due to the absence of complete data on detailed actions, by trade, for Florida and the absence of beginning-of-period figures for New York.

1/ Includes reinstatements.

2/ Cancellations are not synonymous with "dropouts" since they include layoffs, discharges, and out-of-State transfers, as suspensions for military service and voluntary "quits."

3/ Valid data are not available for the number active at the beginning of year. In addition, due to problems associated with conversion to a new computer system, figures shown are understated.

4/ Data for Calendar Year 1972 not available.

5/ Valid data available for the number active at the end of year only. (Beginning of the year figure is a carryover from 1971.)

NOTE: There is, therefore, no correlation between beginning and end of the year figures for Florida.

6/ These data are for the period October 1, 1971 through December 31, 1972.

#### SPECIAL NOTES

Figures for the Construction, Metal, Printing, and Miscellaneous Trade Summaries do not balance because detailed data were not reported for Florida, and the number active at the beginning of the year was not reported for New York.
